**LAKE TRAVERSE**

- 1,2,3,4,5,6,7 These areas produce nice crappies early in the year.
- 8 Excellent all season walleye area. Troll from the south point to the north about 500 yards.
- 9 This is one of the best large northern spots on the lake, mainly late summer and fall. Use silver minnows, spinnerbait or daredevils.
- 10 Troll this area for nice northerns.
- 11,12,13,14,15 These areas will produce nice walleyes all season. Live bait rigs will work best or use crankbaits.
- 16 The area around Jackson and Carlson Islands can be treacherous because of the rocks just below the surface of the water but it is also some of the best walleye fishing in the lake all year long.
- 17 These rocks are a good area for walleyes, especially during spring and fall.
- 18 This area around Rainbow Island is an excellent walleye area.
- 19 This area is known as Skunk Island, it is a good area for walleye and crappies.
- 20 This is a good spot for northerns, especially in early spring and fall.
