

9 Mile Lake Lots

Six 100x150 lake lots for sale in northeastern South Dakota on 9-Mile Lake. Nestled in the heart of the Glacial Lakes, these lots offer a unique buying opportunity on one of the last best places in South Dakota. Why the name? During the time of South Dakota's settlement, Fort Sisseton was the known site for settler protection. Consequently, several of the lakes in this region are named by how many miles from Fort Sisseton they are. These lots can be grouped for development or larger lot size. Clearly, priced to sell! We look forward to welcoming you to a quiet piece of the Glacial Lakes. **\$35,000-\$55,000**
