

# Bijou Hills Breaks

Bijou Hills Breaks is a property consisting of high buttes and pasture land framing the northern edge of Gregory County. The western edge of the Bijou Hills form a majestic pinnacle that overlooks Lyman, Tripp and Gregory Counties. The Bijou Hills Breaks is a property defining this beautiful area. Consisting of 543 acres of pasture, rolling hills, canyons and high buttes, Bijou Hills Breaks offers both accessibility and serenity. The property borders a major gravel road and the views from the top of the butte go on forever. Located in northern Gregory County the property features 5 dams, 3 springs, excellent fences, native hard grasses and top notch turkey and deer hunting. Because the Bijou Hills were an ancient riverbed, many fossils have been found here. If you're searching for excellent grazing for livestock or your own private hunting spot, please look at Bijou Hills Breaks. **\$419,000**
