

Elk Mountain Acreages

The Elk Mountain acreages consist of four 40 acre tracts and one 80 acre tract. They are located in the Southern Black Hills of South Dakota in the foothills east of Elk Mountain. These acreages for sale have a desirable combination of pine and cedar trees with open meadows. All are fenced on one or two sides. Elk, deer, turkeys, mountain lions, bobcats and coyotes range through the area. The Black Hills area of western South Dakota and eastern Wyoming, with over one million acres of National Forest land, is the perfect place for the outdoor enthusiast. The elevations range from 4,600 to 4,800 feet above sea level. A neighboring well is reported to be 53 feet deep. Access is provided by a private easement of just over one mile east of the county gravel road known as Dewey Road.

40 acre parcels at \$80,000 each

80 acre parcel at \$160,000
