

Lying in the very southeast corner of Lyman County, this property overlooks some of the most spectacular sites in South Dakota. Views up and down the Missouri River and of the magnificent twin buttes across the river are what you'll see from this location. Being very secluded and located at the end of the road this property includes 500 acres of rolling river grass hills. It also borders approximately 1,000 acres of Corp land. Sportsmen will love this area to hunt mule deer, Merriam turkey and prairie chickens along with fishing the river for walleyes, small mouth bass and channel catfish. Water on this property consists of two dams, five mile creek and its closeness to the river. **\$750,000**
